**BIZNER BANK IN THE NETHERLANDS LIVE WITH THALER****Callataÿ & Wouters enables the Rabobank group to launch a new internet bank for Dutch SMEs in record time.**

Amsterdam, 19 February 2007 – This February in the Netherlands, the Rabobank group launched a new internet bank aimed at SMEs. BIZNER Bank, as it is called, is first in its category. It was launched in record time (in less than 9 months), thanks to the Thaler banking software package and the specialised consultants from Callataÿ & Wouters, to whom the Dutch group entrusted the task of implementing the new system.

This is not the Rabobank group's first experience with the Belgian software editor. Indeed, the group has chosen Callataÿ & Wouters as its strategic partner for all direct banking installations throughout the world. This new success is in fact the fourth in three years, and follows the launch of banks in Belgium, Ireland and New Zealand.

We might add that this is Callataÿ & Wouters' first experience in the Netherlands. Certain modifications had to be made to the Thaler package in order to meet local needs, in particular regarding national payments and debit cards.

No doubt this is a partnership that is not about to end, having made such good headway. So, keep watching this space ...

**About Callataÿ & Wouters**

As the leading Belgian specialist in banking and financial software, Callataÿ & Wouters offers two complementary lines of services: the publication of specialised banking software and carrying out installation and development projects. The C&W catalogue contains the THALER multi-company banking solution, the TERAN Business Intelligence tool and the KYUDO e-banking system. Created in 1983, C&W now has 360 highly qualified specialists with competence in two disciplines: computing and banking. Established in more than 10 countries worldwide, the company has carried out projects and missions for more than 70 banks.

Callataÿ & Wouters received the Company of the Year 2005 award in Belgium. This prize - organised by Ernst & Young - rewards companies that show an outstanding growth.
